About Tradegate Exchange

Tradegate Exchange is a stock exchange specialising in executing orders for private investors. Currently trading participants from Germany and Austria are connected to our platform. Around 20,000 securities (equities, bonds and investment funds) can be traded from 8 am to 10 pm. Orders are usually executed in full. The advantages for private investors: no transaction fees and free access to real-time stock market prices and various indices – also via app. Tradegate Exchange is a “regulated market within the meaning of MiFID”.
